Guide to FT Funds Data

The fund prices quoted on these pages are supplied by the fund operators, fund managers and fund administrators. Details of funds published on these pages, including prices, are for the purpose of information only and should only be used as a guide. The Financial Times Limited makes no representation as to their accuracy or completeness and they should not be relied upon when making an investment decision. The sale of interests in the funds listed on these pages may, in certain jurisdictions, be restricted by law and the funds will not necessarily be available to persons in all jurisdictions in which the publication circulates. Persons in any doubt should take appropriate professional advice. Data collated by **ICE**. The fund prices published in this edition along with additional information are also available on the Financial Times website, **www.ft.com/funds.** The funds published on these pages are grouped together by fund management company. Prices are in pence unless otherwise indicated. The change, if shown, is the change on the previously quoted figure (not all funds update prices daily).Those designated $ with no prefix refer to US dollars. Yield percentage figures (in Tuesday to Saturday papers) allow for buying expenses.
Prices of certain older insurance linked plans might be subject to capital gains tax on sales.

OEIC: Open-Ended Investment Company. Similar to a unit trust but using a company rather than a trust structure. Different share classes are issued to reflect a different currency, charging structure or type of holder.
Bid price: Also called selling price. The price at which units in a unit trust are sold by investors.
Offer price: Also called buying price. The price at which units in a unit trust are bought by investors. Includes manager's initial charge.
Single price: Based on a mid-market valuation of the underlying investments. The buying and selling price for shares of an OEIC and units of a single priced unit trust are the same. Treatment of manager's periodic capital charge:
24 and 36 months: 24 and 36 month annualized performance figures calculated using the total gain (or loss) from that period. Performance formula is adjusted to consider the income distribution during the reference period.
Yield: Calculated using the fund's projected annual income, divided by the latest available net asset value.

The prices appearing in the newspaper are the most recent provided by the managers/operators.
Charges for this advertising service are based on the number of lines published and the classification of the fund. Please contact data@ft.com for further information. For further queries contact **newspapers@ice.com**
